COMMUNITY PLAYGROUND

The Community Playground of the Municipality of Klos was constructed and equipped with the latest safety standards.

BENEFICIARIES

The newly constructed playground is being utilized by approximately 390 children, as well as their parents and grandparents. They are more informed about EU values on environmental protection and waste management.

SOCIAL WELFARE

Children participated in 14 educational and entertaining environmental protection activities. The objective of all activities is to improve the quality of life in Klos.

PURPOSE

The primary goal of this project is to enhance local services and increase community participation in boosting social well-being in Klos Municipality.
